

STAR-MECH

STAR-MECH CONTROLS (INDIA) PVT. LTD.

Engineered to Perfection!

Environmental, Occupational Health & Safety Policy

To become a global leader in providing flow measurement and air gauging solutions by inventing innovative technologies.

We at Star-Mech will work in harmony with the environment and promote occupational health and safety measures at all levels of our operations. We will demonstrate a continual commitment towards providing and maintaining, for all employees, a safe, pollution free, adequate and suitable environment at the work place. We endeavour to:

- Utilize natural and man-made resources in an optimal and responsible manner and ensure the sustainability of resources by reducing, reusing, recycling and managing waste.
- Protect the environment and strive to prevent pollution by all available means under its control and influence.
- Comply with all applicable statutory and regulatory obligations, legal, safety and other requirements.
- Prevent risks related to injury and ill health in the workplace.
- Regularly review operational controls to continually improve performance of integrated management system.
- Create awareness on environment, health and safety amongst all stakeholders associated with organisation.
- Impart training & awareness of all employees within the organization, our suppliers & partners, on occupational health & environmental requirements.
- This will be achieved by promoting consultation and participation of workers and all our employees.

Wadhwa
